DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is rejected under 35 U.S.C. 101 because the claim recites the limitations that appears simultaneously claiming both statutory classes (a method and an apparatus), results in a claim which is not a proper claim under 35 U.S.C. 101. See for example *Ex parte Lyell* 17 USPQ2d (Bd.PA&I 1990).

2. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-6 are narrative in form, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 1-6 are narrative in form and do not contain positively recited steps of a specific process. Note that method claims should set forth a series of steps in the active tense, in an instruction like manner, thereby reciting an actual method. Dependent

claims should further limit base claims by reciting additional steps in a likewise fashion.

See for example *Ex parte Erlich* 3USPQ2d 1001 at 1017 [6].

Examiner's note: since the foregoing claims do not set forth steps involved in the method or what a cellular radio-communication system comprises, it does not allow the Examiner to perform complete searches in meaningful way for determining the patentability of the instant application.
